Friends of ATR
, which shows how much your taxes will increase if the Democrat's proposed $400 billion tax increase goes into effect. In the years following the Democrat's tax increase, Americans would pay an average of $3,035 more per year than they currently are. The table has the data for each state. Californians will see an increase of $3,331. Follow this link to see how much more you would have to pay:
